Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 1, the phrase “of the type” is improper and should be removed. In lines 4-5, there is no antecedent basis for “the head portion”. Claim 14 recites a similar ambiguity.

With respect to claims 8, 9, 12, 13, and 18, the phrase “stirrup-like” is improper and should be removed. It is unclear as to what structure(s) are encompassed by the phrase.

With respect to claim 11, there is no antecedent basis for “the curved elongate body”.

With respect to claim 18, it is unclear as to how the 3 elements define a stirrup-like structure.

With respect to claim 20, the phrase “yoke-like” is improper and should be removed, as it is unclear as to what structures are encompassed by the phrase.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3634

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Woller #5,971,104. Woller, as recited in column 7, lines 26-47, discloses a pair of foot engaging members/straps (stirrups) 96, secured to support members 74 of platform 26 by means of fasteners, the straps having a curved configuration depending toward the platform 26, the straps also being made of stiff materials causing them to stand up and fabricated from synthetic polymers, i.e., a wide array of plastics.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ferguson et al #4,130,180, Jamieson #5,052,516, Maxwell #5,642,789, Schulte #6,282,872, Taylor #4,587,798, Gardner et al #5,156,236, Sweat et al #4,230,203, Mancini, Jr. #5,842,540, and Baker et al #3,460,649 are cited to teach foot attachments.
